

# Backpack fire pump review

Vallfirest VFT 20 Liters

By Rob Littiken, The Nature Conservancy 04/04/20

Let me start by saying I really like this pack. It has a soft internal, replaceable water bladder. Lots of handles and straps for carrying. A large rear pocket and comfortable backpack strap. 20L/ 5 gallon capacity.

## Pros:

- Comfortable to wear. Much better than the old Indian cans
- Sprayer has 1 adjustable tip. From fan to stream with a twist of the tip.
- Sprayer pumps in both directions. On compression and extension for twice the amount of spraying.
- Quick connect for sprayer.
- About the same price as Indian can and sprayer. Supplycache.com Vallfirest-\$199 with sprayer, Indian Chief (soft pack) \$220

## Cons:

- Made in Spain. Only dealer I know of is supplycache.com
- A little bit lighter duty fabrics than regular soft packs.
